

Xtreme-Duty™ Agitator

Capable of Mixing High Viscosity Materials
for Protective Coatings

Graco is your all-in-one solution

- Helps maintain proper material consistency
- Can be easily mounted on 200-liter (55-gallon) drums
- Blades are sized to allow a transfer pump inside the drum

PROVEN QUALITY. LEADING TECHNOLOGY.

Xtreme-Duty™ Agitator

Capable of Mixing High Viscosity Materials for Protective Coatings

Step one is proper mixing

If the material is not properly mixed, it will never reach optimal performance conditions despite the top quality pump; sprayer, and spray gun.

The Xtreme-Duty™ Agitator is designed specifically with protective coatings materials in mind. Able to mix common high-solid coatings in 200L (55-gallon) drums, this provides better mixing and quality control over all high-solid coatings. Special blades are designed to keep high viscosity materials in suspension.

How it works

Adjustable height, high-torque blades spin to lift the material from the bottom of the drum, thereby reducing settling of the material. An extra set of blades can be used for additional mixing capacity.

Ordering Information

- 25A598 Bare agitator
- 25A599 Agitator on drum cover with handles
- 25A600 Agitator on drum cover with elevator
- 25A601 Agitator on drum cover with elevator and feed pump (5:1 CS Monark)
- 25A602 Agitator on drum cover with elevator and feed pump (5:1 SST Monark)
- 25A603 Agitator on drum cover with elevator and feed pump (10:1 CS President)
- 25A604 Agitator on drum cover with elevator and feed pump (10:1 SST President)
- 17J004 Blade set. For use as spare or extra mixing.
- 217374 Gear oil (change after first 100 hrs of break-in period)

Simple Pneumatic Controls

- Simple up, down and run operation
- Does not spin while raising or lowering elevator

Return Tube & Threaded Accessory Ports

- Easy to add circulation or re-fill hoses

Lift Handles

- Sold separately

New Blade Geometry

- More surface area for mixing
- Optimized for high-solid coatings

5:1 and 10:1 Supply Pump

- Feeds high viscosity coatings
- Wye strainer and feed hose to proportioner

Lift Handles

- Sold separately

SST Lid

- Durable and corrosion-resistant

High-Torque Agitator

- Capable of mixing high-solid coatings
